

150W for Laser Equipment

- High reliability, low cost
- Top brand components for key parts
- Built-in EMI filter
- 5 years limited warranty
- F615 199×98×50(mm)

Weight & packing	0.68kg, 20pcs
AC input range	170~264VAC (210~370VDC)
Input frequency	47~63Hz
Inrush current	cold start, 40A/230VAC
Leakage current	< 0.7mA/ 230VAC
Line regulation	≤ ± 0.5%
Vadj range	V1: ± 5% of rated output voltage
Overloadprotection	105~130%, shut off, re-power on to recover
Withstand voltage	I/P -O/P: 1.5KVAC/1min; I/P -F/G: 1.5KVAC/1min; O/P-F/G: 0.5KVAC/1min
Rise time	50ms@full load (typical)
Hold up time	20ms@full load (typical)
Operating temp.	-20°C~+50°C
Safety standards	design meet GB4943, UL60950, EN60950
Cooling method	convection

Model	DC Output		Voltage Tol.	R&N	Efficiency
HF150W-D-L	15V	0.5~5.0A	± 1%	120mV	85%
	-15V	0.5~5.0A	± 10%	120mV
